# VDS CoBeNe Summer School Advanced Regression Analyses

July 12-15<sup>th</sup> 2022 in Budapest, Hungary. The call is open now!

## VDS CoBeNe SUMMER SCHOOL 2022 | ADVANCED REGRESSION ANALYSES

### July 12th – 15th, 2022 in Budapest

PhD candidates of the Vienna Doctoral School in Cognition, Behavior and Neuroscience are organizing a Summer School on Advanced Regression Analyses in Budapest, Hungary.

The aim of this Summer School is to provide CoBeNe PhD candidates with a possibility for social exchange and professional development in the field of empirical research methods in a highly motivated environment. The Summer School comprises an intensive 4-day workshop including a total of 24 hours of theoretical input and practical training in advanced regression analyses. The workshop instructor [Dr. Tamas Nagy](#), assistant professor at Eötvös Loránd University, Budapest, will provide a theoretical introduction to different types of regression analyses beyond linear and logistic regression. The theoretical introduction will be accompanied by a practical workshop to implement the new knowledge. Evenings will be used for socializing and networking, discussing ideas and encouraging further collaborations among PhDs.

The Summer School will have spaces for 26 CoBeNe PhD candidates and 26 students from the Eötvös Loránd University in Budapest. A basic working knowledge of R is required (details of required knowledge are in the registration form) in order to ensure that participants can get the most out of the sessions.

Please complete this [online registration form](#) by March 31<sup>st</sup>, 2022 if you want to participate in the Summer School. Spots will be granted on a “first come, first served” basis. The cost of transport, accommodation, breakfast (every day) and a workshop lunch (on the final day) will be covered by VDS CoBeNe.
